Chair Philip Isenberg
CA

Dear Chair Isenberg,

Dear Mr. Isenberg,

I would like to urge the Delta Stewardship Council to opt for a strong program restoration of the Delta, in line with recommendations from the Sierra Club and other environmental organizations that been considering the issues.

It is high time that we devised a powerful plan to restore this beautiful ecosystem. It must include strong incentives for water conservation both in residential and agricultural use, as well as controls on agricultural runoff.

Thanks for listening.

Sincerely,

Bob Schildgen

Sincerely,

Mr. Robert Schildgen
